## Air Scissor Lift Tables

## Model LSA11

Section 27

## Travel 25"

Offering a nearly 12 foot long platform, the LSA11 Air Scissor Lift Table raises up to $15,000 \mathrm{lbs}$. The $36 " \times 141^{\prime \prime}$ platform has a raised height of 29 " with a 4 " profile, and 25 " travel providing one-to-one, direct-lifting operation. The LSA11 air scissor lift table takes our powerhouse LSA07 and triples it, placing three powerful lifts end-to-end under the platform.

Popular with bus/truck manufacturing and assembly applications, the LSA11 has also been used with irrigation piping automation. This lift is also easily integrated with transfer conveyor systems.

## Standard Features

- 100\% air operated for low maintenance, ease of use, and work environment safety
- Low profile accommodates a wide range of worker heights and applications
- Modular design is easily customizable to application specifications
- High-strength steel, welded construction built to safety factors required by customer application and in compliance with ANSI MH29.1-1994
- High capacity lifting up to $57,000 \mathrm{lbs}(25,855 \mathrm{~kg})$
- Variable duty cycles from low to high for cost flexibility to fit each application
- Self-lubricating PTFE overlay on bearings at all pivot points for high loads and long life
- Captured wheel guides to prevent top and bottom lift platforms from tipping
- Stackable lift modules for added lift travel
- Patented direct one-to-one lift ratio in which the air bag supplies all of the lifting power, resulting in less stress on the scissors and increased lift longevity
- Virtually maintenance-free for low-cost operation and minimal downtime
- Safety pressure release helps prevent the air bag from overinflating
- Enamel-based acrylic paint applied to all surfaces after being cleaned and primed
- Clean and green technology for a cleaner and safer work environment

## Options

- Lockout valve and filter regulator enhances performance of the air supply
- Piloted internal valves with check valves prevent undesired lift descent
- Portability kits allows lift system to be moved with ease
- High speed capability with a full cycle in under 10 seconds
- Safety skirting to protect from pinch points and debris
