## Air Scissor Lift Tables

## Model LSA27

Section 28
Travel 25"

Another heavy duty lift, the LSA27 Air Scissor Lift Table offers a 52 " $\times 88$ " platform, with a lift capacity of 4000 to $20,000 \mathrm{lbs}$., and a raised height of 32 ". Taking two LSA21s and placing them side by side, the LSA27 employs the power of four scissors with a low 7" profile, and 25 " of travel.

A powerful air scissor lift table, the LSA27 is often used in the steel stamping industry for press loading and unloading.

## Standard Features

- 100\% air operated for low maintenance, ease of use, and work environment safety
- Low profile accommodates a wide range of worker heights and applications
- Modular design is easily customizable to application specifications
- High-strength steel, welded construction built to safety factors required by customer application and in compliance with ANSI MH29.1-1994
- High capacity lifting up to $57,000 \mathrm{lbs}(25,855 \mathrm{~kg})$
- Variable duty cycles from low to high for cost flexibility to fit each application
- Self-lubricating PTFE overlay on bearings at all pivot points for high loads and long life
- Captured wheel guides to prevent top and bottom lift platforms from tipping
- Stackable lift modules for added lift travel
- Patented direct one-to-one lift ratio in which the air bag supplies all of the lifting power, resulting in less stress on the scissors and increased lift longevity
- Virtually maintenance-free for low-cost operation and minimal downtime
- Safety pressure release helps prevent the air bag from overinflating
- Enamel-based acrylic paint applied to all surfaces after being cleaned and primed
- Clean and green technology for a cleaner and safer work environment

## Options

- Lockout valve and filter regulator enhances performance of the air supply
- Piloted internal valves with check valves prevent undesired lift descent
- Portability kits allows lift system to be moved with ease
- High speed capability with a full cycle in under 10 seconds
- Safety skirting to protect from pinch points and debris
